

G. Y. SMITH & CO.

On Account of Slight Imperfections we will sell this Purchase for About Half Price.

We bought of a manufacturer 250 pieces 32-inches wide Printed Mithouse Batistes in large and small figures, polka dots and geometrical figures in light and dark grounds. The cloth in these goods was woven in Alsace Lorraine, the printing was done in this country. They have been produced the handsomest lot of soft finished goods turned out this year, and but for a slight imperfection in each piece somewhere they could not be retailed for less than 25c.

15c THE PRICE TO-DAY 15c

All through our store you will find first-class lines of Dry Goods. The prices are uniformly low and as low as merchandise of the same grades is sold in the United States.

ENTIRE NEW STOCKS OF

Hemp Carpets,
Ingrain Carpets,

JAPANESE NO MARKET.

So Said the City Council Last Night.

CITY HALL LOCATION FIXED.

The Market House Killed—Mr. Casey Withdrew His Proposition—The Building Committee to Ask for Plans—Proceedings.

The council chamber was crowded last night by the people who were deeply interested in the city hall question and possibly other matters that were to come up. The citizens present had opinions, too, and expressed them, several times by loud applause when a speech or a vote entered into. It was plain that the bug of war had been sounded and the consequences that every citizen and the mayor were to see.

It was known that the public grounds committee was not a unit in the recommendations that were to be made and that only two of the committee had signed the report made. After the council had decided not to accept Mr. Bailey's proposition it was discovered that Mr. Armstrong, one of the public grounds committee members, was not to be produced in the proper time, and they were. This was considered peculiar, and was so stated by Mr. Casey, who said that he understood that Mr. Bailey's proposition had not been placed with the secretary. After motions of all kinds and conditions, the council adjourned for a few minutes.

It had been decided to erect a central market for the people. One section of the council was determined to close the city hall matter and adjourn for a few minutes. The other section wanted careful consideration of the matter. The latter party adjourned for twenty-four to forty-eight hours to permit a new proposition to be made, not having sufficient time to make a proposition. The council adjourned for a few minutes.

Some Children Growing Too Fast.

SCOTT'S EMULSION OF PURE COD LIVER OIL AND HYPOPHOSPHITES OF LIME AND SODA.

It will take it readily, for it is as palatable as milk. And it is remembered that as a child grows, it grows in the blood, and the blood is the life of the body.

MINEOLA BONDS.

A Live, Enterprising Town that Intends to Have an Artesian Well in the Near Future—Beds of Iron Ore.

MINEOLA, TEX., May 12.—Last night our city council passed an ordinance to issue at once bonds to the amount of \$3000, running twenty years, bearing 6 per cent interest, to sink an artesian well in the city, and to have the same drilled down to the bottom of the well.

We have now an unfinished well of 200 feet depth, six inches in diameter at the top, with about two hundred and fifty feet of casing and a little over a hundred feet of iron pipe. It is not possible that this well could be utilized and save considerable time and a little expense to the city, but Mr. Newsome will give all necessary information in regard to the well.

In boring the unfinished well mentioned, they passed through a strata of limestone, at a depth of about two hundred and fifty feet, of thirteen feet thickness, and a little further down they came into salt rock about eight feet, and a great many of our citizens are fully satisfied that before going 300 feet we will find an inexhaustible supply of salt. We have heavy outcroppings all around our city, and in addition to the salt we have large beds of iron ore.

It is not possible that this well could be utilized and save considerable time and a little expense to the city, but Mr. Newsome will give all necessary information in regard to the well.
